## Description:

Cleaner Mikon® R-47 is a solvent-based 'heavy duty' cleaner used to clean working tools and surfaces during the processing of polyester and epoxy resin systems. This cleaner is especially suited for the removal of silicone containing polish residues on parts, which will be varnished or glued afterwards. An additionally use is the removal of sealing compounds and release agents.

## Application Fields:

Cleaner Mikon® R-47 is suited for the cleaning of working tools and surfaces and for the preparation of the composite sectors.

## Application:

Dip or spray the objects to be cleaned into Cleaner Mikon® R-47. After the cleaner has penetrated the surface for a couple of minutes, simply wipe it off. Instead of dipping the objects into Cleaner Mikon® R-47, it may as well be applied with a brush or a cloth. Remains of Cleaner Mikon® R-47 can easily be removed with a dry cloth.

## Technical Data

<b>Composition:</b>	mixture of solvents
<b>Appearance:</b>	colourless liquid
<b>Density [g/cm³]:</b>	approx. 0,86
<b>Flashpoint [°C]:</b>	4

## Packaging:

Can	8,6 kg
Can	25,8 kg

## Storage:

This product should be stored in tightly sealed containers and has to be protected from frost, heat and direct sunlight. If these rules are obeyed, the product can be stored for at least 24 months. The expiry date is stated beneath the production date on the labels of each container.

## Regulatory information on safety and transportation is provided in the material safety data sheet.

Technical product information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to product use in production. The data mentioned above do not constitute viable parts of a specification, for which further, separate agreements are necessary.
